

# TYPE EXAMINATION CERTIFICATE

## FIRE RESISTANCE OF LIFTS LANDING DOORS

Issued by Liftinstituut B.V.

Certificate no. : NL17-400-1002-061-24 Revision no.: 1

Description of the product : Fire resistant four panels central opening lift landing door

Trademark : Merih

Type no. : H-MAX C4P

Name and address of the manufacturer : Merih Asansör San. Ve Tic. A.Ş.  
Başkent OSB. Recep Tayyip Erdoğan Bulv. No:8  
Temelli, Ankara, Turkey

Name and address of the certificate holder : Merih Asansör San. Ve Tic. A.Ş.  
Başkent OSB. Recep Tayyip Erdoğan Bulv. No:8  
Temelli, Ankara, Turkey

Certificate based on the following standard : EN 81-58:2018

Test laboratory : Headship of TSE Test and Calibration Center  
Construction Materials Fire and Acoustic Laboratory Directorate  
Aydınlı Mah. Gülenur Sok. No:7/1 Tuzla, Istanbul, Turkey

Date and number of the laboratory report : 26-05-2017 / 343438

Date of type examination : 10-05-2017; 30-09-2021

Classification : 

The performance criteria of the EN 81-58 covered are:			
	E	EI	EW
H-MAX C4P	120	-	-

Additional document with this certificate : Report belonging to the type examination certificate no.: NL17-400-1002-061-24 rev.1

Additional remarks : - This revision replaces certificate NL17-400-1002-061-24 rev. - of 06-06-2017  
- See report.

Conclusion : The lift landing door H-MAX C4P meets the requirements of the EN 81-58:2018, in particular for the classification indicated above.

## Report Type-examination

Report belonging to type-examination : NL17-400-1002-061-24 rev.1  
certificate no.

Date of issue of original certificate : June 6, 2017

Requirements : EN 81-58:2018

Project no. : P160177-01, P210365

### 1. Examinations and tests

The type examination of the four panels central opening lift landing door H-MAX C4P existed from assessing the technical file and laboratory test report. The test was executed on 10-05-2017 at TSE Laboratory, Turkey. All results for fire resistance are described in TSE report no. 343438. Liftinstituut recognizes the test and the results. Report 343438 is part of this examination (annex 1).

### 2. Results

After the final test the fire resistance results of the lift landing door were ranked in accordance with the requirements (classification) of the standard EN 81-58. See report 343438 Chapter 10 for field of direct application of test results.

### 3. Conclusions

Based upon the results of the type-examination, Liftinstituut B.V. issues a certificate for the fire resistance of the Merih lift landing door H-MAX C4P.

The type-examination certificate is only valid for products which are in conformity with the same specifications as the type-certified product. Products deviating of these specifications need additional examination by Liftinstituut in order to determine whether a new type-examination certificate is necessary. Additional examination shall be requested by the certificate holder.

The type examination certificate is issued based on the requirements that are valid at the date of issue. Liftinstituut reserves all rights regarding the validity of the certificate with respect to changes in requirements or changes in state of the art of the product.
